IP44 ONIX GROMMETS

NEW MK Onix Plus Floor Series

NEW MK Onix Plus Floor Series

IP44 Onix Grommets is the new addition to the MK Onix Plus Floor Series, a unique, innovative solution to hard floor power and data distribution requirements in screed floors systems. The minimalistic design in three stylish colors offers a superior load bearing performance and greater durability while providing a total solution for floor power and data distribution at a price that is impossible to ignore.

The lids of the IP44 rated floorbox have a locking mechanism when they are open, providing wet wash solutions and making the product ideal for any commercial application such as reception areas, offices, airports, shopping malls and exhibition halls.

Coupled with the MK wiring devices, we offer a scalable integrated solution for commercial projects which require floor power distribution systems

FEATURES AND BENEFITS

-  IP44 rating for wet washable floors which offers a better occupants' protection in any type of commercial building
-  Grommets are available in 3 modules, 4 modules and 6 modules
-  Aesthetics matters. The new IP44 Grommet has a minimalistic design and is available in 3 stylish colors to meet the most demanding requirements and reduce dependency on multiple suppliers
-  Designed with a common base for raised floor and under floor applications, offering high flexibility while reducing cost of stock
-  Ease of installation
-  Quality, reliability and safety come as standard
-  Impact Resistance rating of IK10 (IEC 62262)
-  Tested to EN50085-2-2 to accept 5kN

*Refer table for compatible modules
